109TH CONGRESS 1ST SESSION

H. R. 3616

To expand the research, prevention, and awareness activities of the National Institute of Diabetes and Digestive and Kidney Diseases and the Centers for Disease Control and Prevention with respect to inflammatory bowel disease.

IN THE HOUSE OF REPRESENTATIVES

July 29, 2005

Mrs. Kelly (for herself, Mr. Cardin, Mr. Jackson of Illinois, Ms. Schakowsky, Mr. Weiner, Mr. McNulty, Mr. Moran of Virginia, Mr. Hinchey, Ms. Kaptur, Mr. Taylor of Mississippi, Ms. Jackson-Lee of Texas, Mr. Berry, and Mr. Cunningham) introduced the following bill; which was referred to the Committee on Energy and Commerce

A BILL

To expand the research, prevention, and awareness activities of the National Institute of Diabetes and Digestive and Kidney Diseases and the Centers for Disease Control and Prevention with respect to inflammatory bowel disease.

- 1 Be it enacted by the Senate and House of Representa-
- 2 tives of the United States of America in Congress assembled,
- 3 SECTION 1. SHORT TITLE.
- 4 This Act may be cited as the "Inflammatory Bowel
- 5 Disease Research Act".

SEC. 2. FINDINGS.

2	The Congress	s finds a	as follows:
---	--------------	-----------	-------------

- (1) Crohn's disease and ulcerative colitis are serious inflammatory diseases of the gastrointestinal tract.
- (2) Crohn's disease may occur in any section of the gastrointestinal tract but is predominately found in the lower part of the small intestine and the large intestine. Ulcerative colitis is characterized by inflammation and ulceration of the innermost lining of the colon. Complete removal of the colon in patients with ulcerative colitis can potentially alleviate and cure symptoms.
 - (3) Because Crohn's disease and ulcerative colitis behave similarly, they are collectively known as inflammatory bowel disease. Both diseases present a variety of symptoms, including severe diarrhea; abdominal pain with cramps; fever; and rectal bleeding. There is no known cause of inflammatory bowel disease, or medical cure.
 - (4) It is estimated that up to 1,400,000 people in the United States suffer from inflammatory bowel disease, 30 percent of whom are diagnosed during their childhood years.
- (5) Children with inflammatory bowel disease miss school activities because of bloody diarrhea and

1	abdominal pain, and many adults who had onset of
2	inflammatory bowel disease as children had delayed
3	puberty and impaired growth and have never
4	reached their full genetic growth potential.
5	(6) Inflammatory bowel disease patients are at
6	high risk for developing colorectal cancer.
7	(7) The total annual medical costs for inflam-
8	matory bowel disease patients is estimated at more
9	than \$2,000,000,000.
10	SEC. 3. NATIONAL INSTITUTE OF DIABETES AND DIGES
11	TIVE AND KIDNEY DISEASES; INFLAMMATORY
12	BOWEL DISEASE RESEARCH EXPANSION.
13	(a) In General.—The Director of the National In-
14	stitute of Diabetes and Digestive and Kidney Diseases
15	shall expand, intensify, and coordinate the activities of the
16	Institute with respect to research on inflammatory bowe
17	ı v
	disease, with particular emphasis on the following areas:
18	
18 19	disease, with particular emphasis on the following areas:
	disease, with particular emphasis on the following areas: (1) Genetic research on susceptibility for in-
19	disease, with particular emphasis on the following areas: (1) Genetic research on susceptibility for inflammatory bowel disease, including the interaction
19 20	disease, with particular emphasis on the following areas: (1) Genetic research on susceptibility for inflammatory bowel disease, including the interaction of genetic and environmental factors in the develop-
19 20 21	disease, with particular emphasis on the following areas: (1) Genetic research on susceptibility for inflammatory bowel disease, including the interaction of genetic and environmental factors in the development of the disease.

- 1 (3) Animal model research on inflammatory 2 bowel disease, including genetics in animals.
 - (4) Clinical inflammatory bowel disease research, including clinical studies and treatment trials.
 - (5) Expansion of the Institute's Inflammatory Bowel Disease Centers program with a focus on pediatric research.
 - (6) Other research initiatives identified by the scientific document entitled "Challenges in Inflammatory Bowel Disease" and the research agenda for pediatric gastroenterology, hepatology and nutrition entitled "Chronic Inflammatory Bowel Disease".

(b) AUTHORIZATION OF APPROPRIATIONS.—

- (1) IN GENERAL.—For the purpose of carrying out subsection (a), there are authorized to be appropriated \$75,000,000 for fiscal year 2006, \$85,000,000 for fiscal year 2007, and \$100,000,000 for fiscal year 2008.
- (2) Reservation.—Of the amounts authorized to be appropriated under paragraph (1), not more than 20 percent shall be reserved for the training of qualified health professionals in biomedical research focused on inflammatory bowel disease, including pediatric investigators.

1	SEC. 4. CENTERS FOR DISEASE CONTROL AND PREVEN-
2	TION; NATIONAL INFLAMMATORY BOWEL DIS-
3	EASE ACTION PLAN.
4	(a) In General.—
5	(1) Preparation of Plan.—The Director of
6	the Centers for Disease Control and Prevention, in
7	consultation with the inflammatory bowel disease
8	community, shall prepare a comprehensive plan to
9	address the burden of inflammatory bowel disease in
10	both adult and pediatric populations (which plan
11	shall be designated by the Director as the "National
12	Inflammatory Bowel Disease Action Plan").
13	(2) Report to congress.— Not later than 12
14	months after the date of the enactment of this Act,
15	the Director of the Centers for Disease Control and
16	Prevention shall submit the Plan referred to in para-
17	graph (1) to the Committee on Energy and Com-
18	merce and the Committee on Appropriations in the
19	House of Representatives and to the Committee on
20	Health, Education, Labor and Pensions and the
21	Committee on Appropriations in the Senate.
22	(b) Content.—
23	(1) In General.—The National Inflammatory
24	Bowel Disease Action Plan shall address strategies
25	for determining the true prevalence of inflammatory
26	bowel disease in the United States, and the unique

1	demographic characteristics of the patient commu-
2	nity through the expansion of appropriate epidemio-
3	logical activities.

- (2) CERTAIN REQUIREMENTS.— The Plan referred to in paragraph (1) shall—
 - (A) focus on strategies for increasing awareness about inflammatory bowel disease within the general public and the health care community in order to facilitate more timely and accurate diagnoses; and
 - (B) address mechanisms designed to prevent the progression of the disease and the development of complications, such as colorectal cancer, and other strategies and activities as deemed appropriate.
- 16 (c) AUTHORIZATION OF APPROPRIATIONS.—For the 17 purpose of carrying out this section, there is authorized 18 to be appropriated \$750,000 for fiscal year 2006.
